CAMPUS FLIX DRIVE-IN MOVIES

Bringing the cinema to you!

Bring your imagination and Campus Flix Drive-In Movies can tailor any event to your specific needs.

Smell the popcorn in the air!

Campus Flix Drive-In Movies combines the authentic charm of the classic drive-in movie with the finest in modern technological innovation. Prepare for a joyful surge of nostalgia as your campus is transformed into a drive-in cinema. Indoor or outdoor; single or double-feature, and you choose the feature films.

Outdoor Cinema is extremely versatile.

Your choice of screen content, music, and movies provides the flexibility to tailor your event.

If video games are popular on your campus, put it on the big screen! Imagine executing the perfect "end-around" football play, 12-hit kung-fu combo, or flawless dance-move sequence, and having it displayed for everyone to see!

Local sports bars may advertise big screen TV's for sporting events, but you can take it to the next level with a screen large enough to show your team's road games in the football stadium, quad, or anywhere on campus where you want to center an entire event around the big game.

You choose the content, we do the rest.

A standard booking includes a four hour program time, two on-site technicians, an inflatable movie screen with a 26' x 13' viewing area, a DVD player, projection equipment, a microphone for announcements, and a sound system with an option for outdoor speakers or FM radio transmission in your car for a genuine drive-in movie experience. Smaller and larger screens are available – up to 40' x 20'.

Your booking includes:

- Four hours of programming time
- An experienced on-site technician
- Airscreen (three sizes available)
  - 16' x 9'
  - 26' x 13'
  - 40' x 20'

  (All airscreen sizes measure the actual viewing area of the screen, not the size of the entire unit.)
- DVD Player (VCR available on request)
- Digital projection system
- Pro-Audio systems
- Microphone for announcements
- Outdoor speakers or FM radio transmission
- Event liability insurance
- Backup systems on equipment
