

Tech Rider

SUGGESTED STAGE SETUP

GENERAL REQUIREMENTS

Stage:

- Suggested minimum stage size is 10' x 16' – the larger the better.
- Two stage assistants to help guests on and off stage. Assistants should be present for entire concert.
- Stage table with bottled water.

Lighting:

- Special effects lighting is preferred. This is basically a pop/rock concert for kids.
- No follow spot required, unless the venue warrants it.
- Brightly lit around front of stage and stairs.

Sound:

- Two guitars (provided by David) plugged into direct boxes or ¼" input
- Wireless UHF headset mic (provided by David) plugged into PA system
- Two playback sound monitors (speakers for the performer on stage)
- CD player to trigger backup music
- Technician to trigger CD tracks
- One microphone (preferably cordless)
- One microphone stand

If you would like a video component to your event:

- Digital projector & video screen is required
- DVD player connected to PA system to project screen images and backup music
- Technician to trigger DVD tracks

Before & after the concert:

- Off-stage table for products and meet & greet sessions. As close to stage as possible.
