Plant a Tree

Our **PLANT A TREE KITS** are a very affordable way to get students involved in the environment. Perfect for Earth Day, these tree kits are fitted with custom labels for your event or campus and can be planted in the ground or grown into bonsai.

Our basic package includes 200 kits and each kit contains:

- Biodegradable peat pot
- Expandable nutrient soil pellet
- Seeds
- Custom labels on each box
- 32-page information-packed booklet inside a decorative box.

**As well as growing instructions, the booklet contains information about the specific tree, "Tree Facts" about the environmental benefits of trees and tree mythology.*

- Shipping and handling

Larger or smaller packages are available.
A minimum order of 100 is required.

The kits provide everything one would need to grow a tree from seed. The kit is designed to be "add water only" and can be grown in a sunny window. We unconditionally guarantee the seeds to sprout. All the materials in the kits are biodegradable. The book and box are printed on high-grade recycled paper with soy inks.

AVAILABLE TREES:
American Elm, Blue Spruce, Dawn Redwood, Douglas Fir, Flowering Catalpa, Giant Sequoia, Ponderosa Pine, and Red Maple
