

## TECH RIDER FOR CAMPUS ESCAPES – “THE MYSTERY ON MOUNT OLYMPUS”

**TECHNICAL REQUIREMENTS:** We will discuss with you, in advance, the specifics of the space & equipment that you have available. If any of these requirements cannot be met, we can generally find a work-around, however advance notice is imperative to the success of the event.

**FACILITY** - The Purchaser must provide the following:

*Room* – An air-conditioned room measuring 15' wide by 15' deep minimum. For larger spaces (greater than 20' x 20'), additional walls can be provided by Campus Escapes (for a fee) to reduce room size if there are no on-site options, but this must be discussed in advance of final contracting. The door must be capable of closing. Outside the entrance to the room must be a waiting area featuring enough space for team photos.

*Surfaces* – The ideal floor is flat hardwood or tile. All walls and floor-space must be cleared of furniture and other objects, except those mentioned below.

*Lighting* – Required ability to turn the lights on and off in the room. If the room has windows, they must be covered to block out light.

*Volunteers* – Two (2) volunteers available for the length of the event itself to check in arriving teams, take team pictures and send new teams into the room experience.

**EQUIPMENT** - The Purchaser must provide the following:

*Furniture* - (3) 6' to 8' tables and (1) 8' table, or pieces of furniture approximately sized that can provide a surface, emptied out completely.

*Electricity* – Access to at least one electrical outlet is necessary (two preferred).

*If you have any additional small furniture pieces to put in the room, those are welcome, but not necessary. Examples would include: filing cabinet, side table, credenza, additional chair, bookcase.*

*Technology*

- *Laptop or tablet with Wi-Fi access that will play an intro video with the game story and rules. This video will need to be played before each game. We will provide a link to view the video as well as bring a flash drive with the video in the event Wi-Fi access is not available.*
- *External Speakers are optional but are recommended as to enhance the viewing experience.*

**CREW AND WORK SCHEDULE:** Crew will arrive 2-3 hours prior to the event for set-up and needs 1-2 hours after the event for take-down.

***The rider must be returned along with the contract as part of the contractual agreement.***
