

TECH RIDER FOR CAMPUS ESCAPES – “TOTALLY TUBULAR 80S PARTY”

TECHNICAL REQUIREMENTS: We will discuss with you, in advance, the specifics of the space & equipment that you have available. If any of these requirements cannot be met, we can generally find a work-around, however advance notice is imperative to the success of the event.

FACILITY - The Purchaser must provide the following:

Room – An air-conditioned room measuring 15' wide by 15' deep minimum. For larger spaces (greater than 20' x 20'), additional walls can be provided by Campus Escapes (for a fee) to reduce room size if there are no on-site options, but this must be discussed in advance of final contracting. One wall out of the four must be a solid flat surface suitable for affixing wall hangings. The door must be capable of closing. Outside the entrance to the room must be a waiting area featuring enough space for team photos.

Surfaces – The ideal floor is flat hardwood or tile. All walls and floor-space must be cleared of furniture, wall hangings and other objects, except those mentioned below.

Lighting – Required ability to turn the lights on and off in the room.

Volunteers – Two (2) volunteers available for the length of the event itself to check in arriving teams, take team pictures and send new teams into the room experience.

EQUIPMENT - The Purchaser must provide the following:

Furniture

- (4) 6' tables or pieces of furniture approximately sized that can provide a surface, emptied out completely.
- (1) Folding Chair or small chair.
- (20) Balloons of any color, preferably filled with helium. If this is not available, please let us know in advance and we will provide an alternative.

Electricity – Access to at least one electrical outlet is necessary (two preferred).

CREW AND WORK SCHEDULE: Crew will arrive 2-3 hours prior to the event for set-up and needs 1-2 hours after the event for take-down.

The rider must be returned along with the contract as part of the contractual agreement.
